

that would otherwise be sold under the plan or, if not feasible, sell such timber over and above the plan volume.

(Pub. L. 93–378, §13, as added Pub. L. 94–588, §11, Oct. 22, 1976, 90 Stat. 2957; amended Pub. L. 115–141, div. O, title II, §208(b)(2), Mar. 23, 2018, 132 Stat. 1066.)

AMENDMENTS

2018—Subsec. (a). Pub. L. 115–141 substituted “Secretary shall limit” for “Secretary of Agriculture shall limit”.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under this subchapter to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see note set out under section 1601 of this title.

TIMBER SALES PIPELINE RESTORATION FUND

Pub. L. 104–134, title I, §101(c) [title III, §327], Apr. 26, 1996, 110 Stat. 1321–156, 1321–206; renumbered title I, Pub. L. 104–140, §1(a), May 2, 1996, 110 Stat. 1327, provided that:

“(a) The Secretary of Agriculture and the Secretary of the Interior shall each establish a Timber Sales Pipeline Restoration Fund (hereinafter ‘Agriculture Fund’ and ‘Interior Fund’ or ‘Funds’). Any revenues received from sales released under section 2001(k) of the fiscal year 1995 Supplemental Appropriations for Disaster Assistance and Rescissions Act [probably means section 2001(k) of Pub. L. 104–19, set out below], minus the funds necessary to make payments to States or local governments under other law concerning the distribution of revenues derived from the affected lands, which are in excess of \$37,500,000 (hereinafter ‘excess revenues’) shall be deposited into the Funds. The distribution of excess revenues between the Agriculture Fund and Interior Fund shall be calculated by multiplying the total of excess revenues times a fraction with a denominator of the total revenues received from all sales released under such section 2001(k) and numerators of the total revenues received from such sales on lands within the National Forest System and the total revenues received from such sales on lands administered by the Bureau of Land Management, respectively: *Provided*, That revenues or portions thereof from sales released under such section 2001(k), minus the amounts necessary for State and local government payments and other necessary deposits, may be deposited into the Funds immediately upon receipt thereof and subsequently redistributed between the Funds or paid into the United States Treasury as miscellaneous receipts as may be required when the calculation of excess revenues is made.

“(b)(1) From the funds deposited into the Agriculture Fund and into the Interior Fund pursuant to subsection (a)—

“(A) seventy-five percent shall be available, without fiscal year limitation or further appropriation, for preparation of timber sales, other than salvage sales as defined in section 2001(a)(3) of the fiscal year 1995 Supplemental Appropriations for Disaster Assistance and Rescissions Act [probably means section 2001(a)(3) of Pub. L. 104–19, set out below], which—

“(i) are situated on lands within the National Forest System and lands administered by the Bureau of Land Management, respectively; and

“(ii) are in addition to timber sales for which funds are otherwise available in this Act or other appropriations Acts; and

“(B) twenty-five percent shall be available, without fiscal year limitation or further appropriation, to expend on the backlog of recreation projects on lands

within the National Forest System and lands administered by the Bureau of Land Management, respectively.

“(2) Expenditures under this subsection for preparation of timber sales may include expenditures for Forest Service activities within the forest land management budget line item and associated timber roads, and Bureau of Land Management activities within the Oregon and California grant lands account and the forestry management area account, as determined by the Secretary concerned.

“(c) Revenues received from any timber sale prepared under subsection (b) or under this subsection, minus the amounts necessary for State and local government payments and other necessary deposits, shall be deposited into the Fund from which funds were expended on such sale. Such deposited revenues shall be available for preparation of additional timber sales and completion of additional recreation projects in accordance with the requirements set forth in subsection (b).

“(d) The Secretary concerned shall terminate all payments into the Agriculture Fund or the Interior Fund, and pay any unobligated funds in the affected Fund into the United States Treasury as miscellaneous receipts, whenever the Secretary concerned makes a finding, published in the Federal Register, that sales sufficient to achieve the total allowable sales quantity of the National Forest System for the Forest Service or the allowable sales level for the Oregon and California grant lands for the Bureau of Land Management, respectively, have been prepared.

“(e) Any timber sales prepared and recreation projects completed under this section shall comply with all applicable environmental and natural resource laws and regulations.

“(f) The Secretary concerned shall report annually to the Committees on Appropriations of the United States Senate and the House of Representatives on expenditures made from the Fund for timber sales and recreation projects, revenues received into the Fund from timber sales, and timber sale preparation and recreation project work undertaken during the previous year and projected for the next year under the Fund. Such information shall be provided for each Forest Service region and Bureau of Land Management State office.

“(g) The authority of this section shall terminate upon the termination of both Funds in accordance with the provisions of subsection (d).”

EMERGENCY SALVAGE TIMBER SALE PROGRAM

Pub. L. 104–19, title II, §2001, July 27, 1995, 109 Stat. 240, as amended by Pub. L. 104–134, title I, §101(c) [title III, §316], Apr. 26, 1996, 110 Stat. 1321–156, 1321–202; renumbered title I, Pub. L. 104–140, §1(a), May 2, 1996, 110 Stat. 1327, provided for salvage timber sales from certain Federal lands by the Secretary of Agriculture and the Secretary of the Interior from July 27, 1995 to Dec. 31, 1996.

§ 1612. Public participation

(a) Adequate notice and opportunity to comment

In exercising his authorities under this subchapter and other laws applicable to the Forest Service, the Secretary, by regulation, shall establish procedures, including public hearings where appropriate, to give the Federal, State, and local governments and the public adequate notice and an opportunity to comment upon the formulation of standards, criteria, and guidelines applicable to Forest Service programs.

(b) Advisory boards

In providing for public participation in the planning for and management of the National Forest System, the Secretary, pursuant to the Federal Advisory Committee Act (86 Stat. 770)

and other applicable law, shall establish and consult such advisory boards as he deems necessary to secure full information and advice on the execution of his responsibilities. The membership of such boards shall be representative of a cross section of groups interested in the planning for and management of the National Forest System and the various types of use and enjoyment of the lands thereof.

(Pub. L. 93-378, §14, as added Pub. L. 94-588, §11, Oct. 22, 1976, 90 Stat. 2958.)

REFERENCES IN TEXT

The Federal Advisory Committee Act, referred to in subsec. (b), is Pub. L. 92-463, Oct. 6, 1972, 86 Stat. 770, as amended, which is set out in the Appendix to Title 5, Government Organization and Employees.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under this subchapter to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see note set out under section 1601 of this title.

FOREST SERVICE DECISIONMAKING AND APPEALS REFORM

Pub. L. 102-381, title III, §322, Oct. 5, 1992, 106 Stat. 1419, which provided for the establishment of a notice and comment process for proposed actions of the Forest Service relating to certain land and resource management projects and required modification of the procedure for appeals of decisions concerning such projects, was repealed by Pub. L. 113-79, title VIII, §8006(a), Feb. 7, 2014, 128 Stat. 913.

§ 1613. Promulgation of regulations

The Secretary shall prescribe such regulations as he determines necessary and desirable to carry out the provisions of this subchapter.

(Pub. L. 93-378, §15, as added Pub. L. 94-588, §11, Oct. 22, 1976, 90 Stat. 2958; amended Pub. L. 115-141, div. O, title II, §208(b)(2), Mar. 23, 2018, 132 Stat. 1066.)

AMENDMENTS

2018—Pub. L. 115-141 substituted “Secretary” for “Secretary of Agriculture”.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under this subchapter to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see note set out under section 1601 of this title.

§ 1614. Severability

If any provision of this subchapter or the application thereof to any person or circumstances is held invalid, the validity of the remainder of this subchapter and of the application of such provision to other persons and circumstances shall not be affected thereby.

(Pub. L. 93-378, §16, as added Pub. L. 94-588, §11, Oct. 22, 1976, 90 Stat. 2958.)

SUBCHAPTER II—RESEARCH

§ 1641. Findings and purpose

(a) Findings

Congress finds the following:

(1) Forests and rangeland, and the resources of forests and rangeland, are of strategic economic and ecological importance to the United States, and the Federal Government has an important and substantial role in ensuring the continued health, productivity, and sustainability of the forests and rangeland of the United States.

(2) Over 75 percent of the productive commercial forest land in the United States is privately owned, with some 60 percent owned by small nonindustrial private owners. These 10,000,000 nonindustrial private owners are critical to providing both commodity and non-commodity values to the citizens of the United States.

(3) The National Forest System manages only 17 percent of the commercial timberland of the United States, with over half of the standing softwoods inventory located on that land. Dramatic changes in Federal agency policy during the early 1990's have significantly curtailed the management of this vast timber resource, causing abrupt shifts in the supply of timber from public to private ownership. As a result of these shifts in supply, some 60 percent of total wood production in the United States is now coming from private forest land in the southern United States.

(4) At the same time that pressures are building for the removal of even more land from commercial production, the Federal Government is significantly reducing its commitment to productivity-related research regarding forests and rangeland, which is critically needed by the private sector for the sustained management of remaining available timber and forage resources for the benefit of all species.

(5) Uncertainty over the availability of the United States timber supply, increasing regulatory burdens, and the lack of Federal Government support for research is causing domestic wood and paper producers to move outside the United States to find reliable sources of wood supplies, which in turn results in a worsening of the United States trade balance, the loss of employment and infrastructure investments, and an increased risk of infestations of exotic pests and diseases from imported wood products.

(6) Wood and paper producers in the United States are being challenged not only by shifts in Federal Government policy, but also by international competition from tropical countries where growth rates of trees far exceed those in the United States. Wood production per acre will need to quadruple from 1996 levels for the United States forestry sector to remain internationally competitive on an ever decreasing forest land base.

(7) Better and more frequent forest inventorying and analysis is necessary to identify productivity-related forestry research needs and to provide forest managers with the
